FROM INSPIRATION  
TO REALIZATION

**Architectural Elements**  
Technological solutions  
to create beauty  
in all shapes and sizes

*Technological solutions  
to create beauty in all shapes and sizes*

Certain projects feature **architectural** elements with particular characteristics that strongly impact the final result, both from an **aesthetic** and practical point of view. Columns, arches, balustrades, fireplaces and other elements were once made by hand, while today there are technological tools that considerably reduce production time and cost.

Therefore, it is essential to rely on companies that have specific skills and the **appropriate machinery** for cutting the required materials. Depending on the needs of the architects and the type of stones involved, we are able to recommend the best solutions offered by our **selected suppliers**.

**Via Dell'Arte** was founded by **Luca Meneghini** back in **2006 in Florida**.

Luca gained valuable experience in the USA ceramic market starting his career working for several years both on the Manufacture and Distribution side following four years in the architectural and builder division of Walker & Zanger for the Southeast Region.

Today, Via Dell'Arte employees 7 people, sells to over 150 Customers from large wholesalers to regional distributors and local importers across USA & Canada, and represents more than 20 Vendors from Italy, Portugal, Morocco, USA and Brazil.

**Via Dell'Arte** is an American company with and international spirit and we are passionate about the products we promote and sell
