Terrazzo

Born in ancient Rome,
made famous in Venice,
still loved internationally today

*Born in ancient Rome, made famous in Venice,
still loved internationally today*

Terrazzo origins can be dated back to **ancient Greek and Roman** mosaics. But it was in the 18th century that it took its most recognizable form: "Venetian Pavement".

Born as a poor material created by mixing natural marble chips, glass, **natural stone powder**, granite and color pigments with cement, today Terrazzo is an example of **Italian style**.

It is used for both indoor and outdoor projects, in particular by interior designers from all over the world. It is an easily customizable material that offers countless **decorative** possibilities in the form of **tiles** and slabs for floors, walls, worktops, as well as for the creation of furniture and decorative accessories.

Via Dell'Arte was founded by **Luca Meneghini** back in **2006 in Florida**.

Luca gained valuable experience in the US ceramic market starting his career working for several years both on the Manufacture and Distribution side following four years in the architectural and builder division of Walker & Zanger for the Southeast Region.

Today, Via Dell'Arte employees 7 people, sells to over 150 Customers from large wholesalers to regional distributors and local importers across USA & Canada, and represents more than 20 Vendors from Italy, Portugal, Morocco, USA and Brazil.

Via Dell'Arte is an American company with an international spirit and we are passionate about the products we promote and sell
